## The Legendary IES 20th Anniversary

IES Technology Group is a cutting edge heat transfer solutions provider since 1998. We persevere to create excellence for 20 years. With our headquarters in Hong Kong, production facilities in the PRC and subsidiaries spread over Macau, Singapore and major cities of the PRC such as Guangzhou and Shanghai. We have built a remarkable history and ranked top as the largest heat exchanger manufacturer in both Macau and Hong Kong.

### Focus Reviews

To express our gratitude to our long-standing partners for their incredible support over the years, IES 20th Anniversary Celebration was held on November 30, 2018 at the Kerry Hotel Hong Kong. More than 250 industry representatives, company senior executives and colleagues celebrated and shared happiness together, which made a memorable night for us.

## INTEGRATED ENGINEERING SOLUTION

2008 - We expanded our manufacturing facility from Zhangmutou to Tangxia.

2015 – We set up 2 more operating offices in China -Guangzhou and Shanghai.

2017 – Our HK headquarters has relocated to Tai Po Industrial Estate.

2018 - Tangxia Factory has relocated to Changping

In the future, we will continue to put more effort on R&D, strive for product excellence and build our global presence. With AHRI certificated thermal-hydraulic test center, our capability to design, develop, improve and trouble-shoot our heat transfer equipment will be significantly enhanced to better meet the ever changing needs of our customers.
